INDEX TO SHEETS INDEKS VAN VELLE

The grid lines of the South African Co-ordinate System are indicated in the margin by short black ticks at 10 000 metres intervals, with co-ordinate values in units of 10 000 metres in blue.
The grid lines of the adjoining grid are indicated similarly on the outside of the graticule drawing.

Die ruitlyne van die Suid-Afrikaanse Koordinatstelsel word in die kante van die kaart deur kort swart strepies 10 000 meter van mekaar, met koördinaatwaardes in eenhede van 10 000 meter in blou.
Die ruitlyne van die aangrensende ruitlyne word op dieselfde manier aan die buitekant van die grateruitstelling aangedui.
