MARKING GUIDELINE
JUNE 2021**

MARKS: 100

MARKING PRINCIPLES:

- Penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
- Full marks for correct answer. If answer incorrect, mark the workings provided.
- If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer).
- Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or - sign or bracket is provided, assume that the figure is positive.
- Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
- Where penalties are applied, the marks for that section of the question cannot be a final negative.
- Where method marks are awarded for operation, the marker must inspect the reasonableness of the answer and at least one part must be correct before awarding the mark.
- Operation means 'Check operation'. 'One part correct' means 'Operation & one part correct'.
Note: Check operation means must be +, -, x, or ÷ per memo, but some items can be + or - such as stock deficit.
- Be aware of candidates who provide valid alternatives beyond the marking guideline.
